Dear Ones at Arcadia

I arived here right side up with care at 4 30 oClock in the rain, it rained here most all day. It rained part of the way up here, it began to rain just as the train left Santa B[illegible]ra It looks as if it was going to clear off, I hope so, for it makes to so gloomy and lonesome when it rains
Well the lumber has not come yet so I guess it is a case of lay off for a few days
I wish I had of sayed there for a few days longer.
I wish you would see Mr Bertlenia and have him

2/ send me a price list of those orange and lemon trees as soon as he can and ask him if he knows what it would cost to send about 50 trees and maybe more, I will try and find out about how many they the people want and let you know.

Many thanks for the nice lunch I had enough left for supper to

I wish you didn't have so many chores to do I'm afraid you will work your self down sick

Will try and send you some money in a day or two as soon as I get paid for last week

I can't think of any more silly things to write so will ring off for this time will try and do better next time

Goodby with love to all and many kisses
